

# Mayze

## Chairs & Stools

by **Allermuir**

Design Jonathan Prestwich

'Mayze' is a seating program that holds its arms out to visitors. Born from an ambition to combine a new material and structure to maximum comfort with the minimum of materials. Using both structural technical knitting and cushions to create a combination of dynamic and cosy sitting with a reduced impact on the environment. The Mayze range comprises a compact version suitable for meeting and conference environments and a lounge chair.

### Standard Features

- 3D technical knitted mesh back
- Upholstered seat cushion
