

Polygon collection

PRODUCT SHEET

Polygon collection

by **NUMEN / FOR USE**

Polygon is an easy chair with armrests based on modernistic typology of the seat with modest dimensions which fulfils functional parameters but does not usurp the space with its volume and immobility. The triangles, which define the orthogonal side view on the armchair, transform into hexagons and more complex polygons when the perspective changes. The resulting product seems familiar, or even old-fashioned, yet extremely contemporary. The construction made of bent steel profiles additionally highlights Polygon's dual character.

SPECIFICATIONS AND TECHNICAL DRAWING

SEAT & BACKREST	moulded foam, metal frame, elastic belts
BASE	metal rod Ø16 mm + powder coating
