

Solid Conference

The Solid Conference Table is created from a totem column with a square and circular plan geometry at its vertices.

An honest and attractive design due to its forcefulness and simplicity of shapes, which makes it the essential archetype of the table with a central column for work meetings or the home. An elegant and neutral aesthetic that integrates into the architecture of any public or private space. It uses 100% recyclable and 100% recycled Pure ECO® materials.
