IBIS est la nouvelle collection conçue par Mirto Antonel pour Alea Office. Réalisée pour un environnement de travail fonctionnel et moderne, la collection Ibis prévoit autant des bureaux individuels que des postes multiples. Le délicat travail de pliage du piétement à section carrée - 30 mm - lui confère un design pur et élégant

IBIS es la nueva colección diseñada por Mirto Antonel para Alea Office. Pensada para un moderno ambiente de trabajo y espacio de trabajo funcional, Ibis incluye tanto las configuraciones conjuntas como individuales. Su diseño se caracteriza por la pata de anillo plegado hacia el interior, realizada con un perfil de acero de sección cuadrada de 30mm.

IBIS è la nuova collezione disegnata da Mirto Antonel per Alea Office. Pensato per un moderno ambiente di lavoro e spazi di lavoro funzionali, IBIS comprende sia le postazioni aggregate che quelle individuali. Il suo design è caratterizzato dalle gambe ad anello piegate verso l'interno, realizzate con un profilo in metallo a sezione quadrata di 30 mm.

IBIS is the new collection designed by Mirto Antonel for Alea Office. Designed for modern and functional workspaces, Ibis includes both multiple and individual workstations. Its design features ring legs folded towards the inside manufactured from 3 mm thick steel square section.

La struttura portante di IBIS è leggera ed elegante. La gamba è stata pensata per integrarsi visivamente col piano scrivania di cui condivide lo spessore. Tra le caratteristiche architettoniche peculiari di IBIS troviamo le grandi superfici di lavoro singole e doppie che vanno a coprire le cassettiere strutturali, disponibili in diverse larghezze.

IBIS' bearing structure is light and elegant. The leg has been thought to visually integrate with the desk top whose profile it shares. Among Ibis' architectural features are large single or double worksurfaces that cover the structural pedestals, which are available in different widths.

La structure porteuse de IBIS est légère et élégante. Le pied a été étudié pour s'intégrer visuellement au plan de travail et pour s'adapter à toute solution d'implantation. Ce que vous offre ibis, c'est la possibilité de proposer de grandes surfaces de travail, en postes simples ou doubles, qui peuvent couvrir même les caissons porteurs, ces derniers disponibles en plusieurs largeurs.

La estructura de IBIS es ligera y elegante. La pata está pensada para integrarse visualmente con el tablero de la mesa con el que comparte el espesor. Entre las características arquitectónicas peculiares de Ibis encontramos las grandes superficies de trabajo individual y doble que van a cubrir las cómodas estructuras, disponibles en diferentes longitudes.

Le cassettiere sono dotate di un retro vano che consente il transito verticale dei cavi e la fuoriuscita sul piano lavoro tramite top access. Gli screen sono disponibili in diversi materiali (tessuto con o senza telaio metallico, metacrilato con telaio metallico o cornice in alluminio, melaminico) e vengono fissati direttamente sopra il piano lavoro sia esso singolo o doppio.

Pedestals are equipped with a hollow backspace that allows vertical cables transit and thanks to the top access they exit on to the worktop. Screens are available in several materials (fabric with or without metal frame, acrylic with metal or aluminium frame, Italian melamine) and they are fixed directly over the worksurface single or double.

Les caissons intègrent un creux technique qui permet le logement ainsi que gestion efficace des fluides, d'où ils peuvent facilement rémonter et sortir sur le plan de travail parmi le top access. Les écrans, fixés directement sur le plan de travail simple ou double, sont proposés dans différents matériaux: tissu sans ou avec cadre métallique (permettant l'accrochage des accessoires), métacrylate avec profil inférieur ou cadre métallique (ce dernier permettant l'accrochage des accessoires), mélaminé avec profil supérieur (permettant l'accrochage des accessoires).

Las cajoneras estan equipadas en su parte trasera con un compartimento que permite el paso vertical del cableado y la subida ala superficie a traves de una tapa abatible/top access en la encimera. Las pantallas divisorias estan disponibles en diversos materiales (tejido con o sin marco metálico, metacrilato con marco metálico o de aluminio, melamina) y son fijadas directamente sobre el plano de trabajo, sea individual o doble.

Un altro dettaglio unico nel design di IBIS è il contenitore laterale a giorno sospeso. Viene solidamente agganciato alla struttura del bench ed offre uno spazio contenitivo comodo e accessibile agli operatori.

Another unique detail for IBIS' design is the open lateral storage unit. It is firmly hung to the bench structure and offers a convenient storage space easy to access for the users.

Un autre détail propre au design de IBIS, c'est le rangement filaire ouvert fixé sur le côté latéral du poste de travail.

En plus de son aspect esthétique agréable, il offre une solution fiable d'un espace de rangement complémentaire et facilement accessible.

Otro detalle único del diseño de IBIS es el contenedor lateral suspendido. Viene sólidamente sujeto a la estructura del bench y ofrece un espacio de almacenaje cómodo y accesible a los usuarios.

IBIS propone una versione di gamba centrale a croce per i tavoli riunione rotondi o quelli rettangolari. Questi ultimi sono disponibili sia in melaminico che rivestiti in pelle con cuciture a vista.

IBIS introduces a different version of the central crossed-shaped leg used for either rounded or rectangular conference and meeting tables. They are available in Italian melamine or covered in leather with stitches in view.

IBIS propose une version de pied central en croix pour les tables de réunion rondes ou rectangulaires. Ces dernières sont disponibles en mélamine ainsi qu'en cuir avec coutures apparentes.

IBIS propone una versión de pata central en cruz para las mesas de reunión redondas o rectangulares. Estas últimas están disponibles tanto en tablero melaminico como revestido en cuero con costuras a la vista.

Una particolare versione di tavolo direzionale IBIS prevede l'utilizzo di piani completamente trasparenti che lasciano a vista la struttura portante sottostante. Le molte tinte epossidiche a disposizione consentono molte combinazioni di colore con le cassettiere e i contenitori.

IBIS executive desk collection offers an option that features the use of completely transparent glass table tops that leaves the underlying bearing structure visible. The several epoxy finishes available allow many colour combinations with the pedestals and storage units.

Une version particulière du bureau de direction IBIS prévoit l'utilisation d'un plan de travail complètement transparent avec un plateau en verre permettant de profiter de la magnifique structure portante. De nombreuses teintes de peinture époxy vous permettent de multiples combinaisons pour personnaliser vos environnements de travail.

Una particular versión de mesa de imagen direccional IBIS ofrece el uso de sobres de mesa completamente transparentes que dejan expuesta a la vista la estructura de soporte de la mesa. La amplia gama de colores de pintura epoxi disponibles permite muchas combinaciones de color con las cajoneras y los contenedores

Il sistema IBIS prevede contenitori laterali strutturali dotati di vani superiori chiusi con ante scorrevoli e vani inferiori per il contenimento di cassettiere e filer. Sono disponibili due versioni: una con piedini regolabili ed una seconda con supporto metallico per rialzare il fondo del contenitore e ospitare il transito orizzontale dei cavi.

IBIS system features side storage units equipped with sliding doors overhead cabinets and lower cabinets to contain drawers and filers. They can be specified in two versions: one with height adjustable feet the other with metal support to raise the base of the storage unit and carry the horizontal cables.

Le système IBIS prévoit des rangements latéraux composés avec compartiments supérieurs fermés par des portes coulissantes et des compartiments inférieurs qui peuvent être à jour ou bien équipés avec blocs tiroirs et niche support UC. Deux versions sont disponibles: la première, plus simple, équipée avec des vérins de réglage pour la mise à niveau au sol et la seconde, plus technique, dotée d'un support métallique qui permet de relever le meuble et laisser ainsi un espace pour le passage horizontal des câbles.

El sistema IBIS dispone de armarios contenedores laterales estructurales con compartimentos superiores cerrados con puertas correderas y compartimientos inferiores para integrar los cajones y archivadores. Existen dos versiones: una con pies ajustables y una segunda con un soporte metálico para elevar el fondo del contenedor y permitir el paso horizontal de los cables.

Ecologia: Alea utilizza per i suoi prodotti e i suoi imballi materiali facilmente separabili e riciclabili. (Immagine 1)

Catena Di Custodia COC: Alea si impegna ad utilizzare materiali legnosi certificati FSC® e pannelli a base di legno con certificazione CARB2.

I pannelli CARB2 presentano un rilascio di formaldeide inferiore rispetto al pannello E1 comunemente utilizzato (classe E1 secondo il DM 10/10/2008).
I prodotti certificati FSC ® (License Code FSC-C118323) sono disponibili su richiesta: contattate i nostri uffici per maggiori informazioni. (Immagine 2)

LEED: Gli arredi di Alea possono contribuire al conseguimento del punteggio di certificazione LEED per i crediti indicati nei product badge. (Immagine 3)

Sistemi di Gestione certificati ISO 9001, ISO 14001, ISO 45001: Alea è attivamente impegnata nel raggiungere standard elevati di qualità e responsabilità attraverso l’adozione di sistemi di gestione certificati ISO per garantire prodotti e servizi di elevata qualità, in grado di soddisfare le aspettative dei clienti, di assicurare un ambiente di lavoro sicuro e di monitorare regolarmente l’impatto ambientale delle nostre attività. (Immagine 4)

Attestazione di prodotto: I prodotti Alea sono stati sottoposti a prove prestazionali presso laboratori di prova accreditati.
Copia dei rapporti di prova o delle attestazioni di conformità sono disponibili su richiesta. (Immagine 5)

Eco-friendly: Alea uses easily separable and recyclable materials for its products and packaging. (Image 1)

Chain of Custody (COC): Alea is committed to using FSC® certified wood materials and CARB2-certified wood-based panels. CARB2 panels have lower formaldehyde emissions compared to the commonly used E1 panels (class E1 according to the DM 10/10/2008). FSC® certified products (License Code FSC-C118323) are available upon request: please contact our offices for more information. (Image 2)

LEED: The A65 system can contribute to obtaining LEED certification points for the credits indicated in the product badges. (Image 3)

ISO 9001, ISO 14001, ISO 45001 Certified Management Systems: Alea is actively committed to achieving high standards of quality and responsibility through the adoption of ISO certified management systems to ensure high-quality products and services that meet customer expectations, provide a safe working environment, and regularly monitor the environmental impact of our activities. (Image 4)

Product Certification: Alea products have undergone performance tests by accredited testing laboratories. Copies of test reports or certificates of conformity are available upon request. (Image 5)
