Flexible beam sofa for every space

Its flexible beam construction makes Appoint easy to adapt to different layouts. Mix seats with tables and armrests to suit your needs.

Modules and options

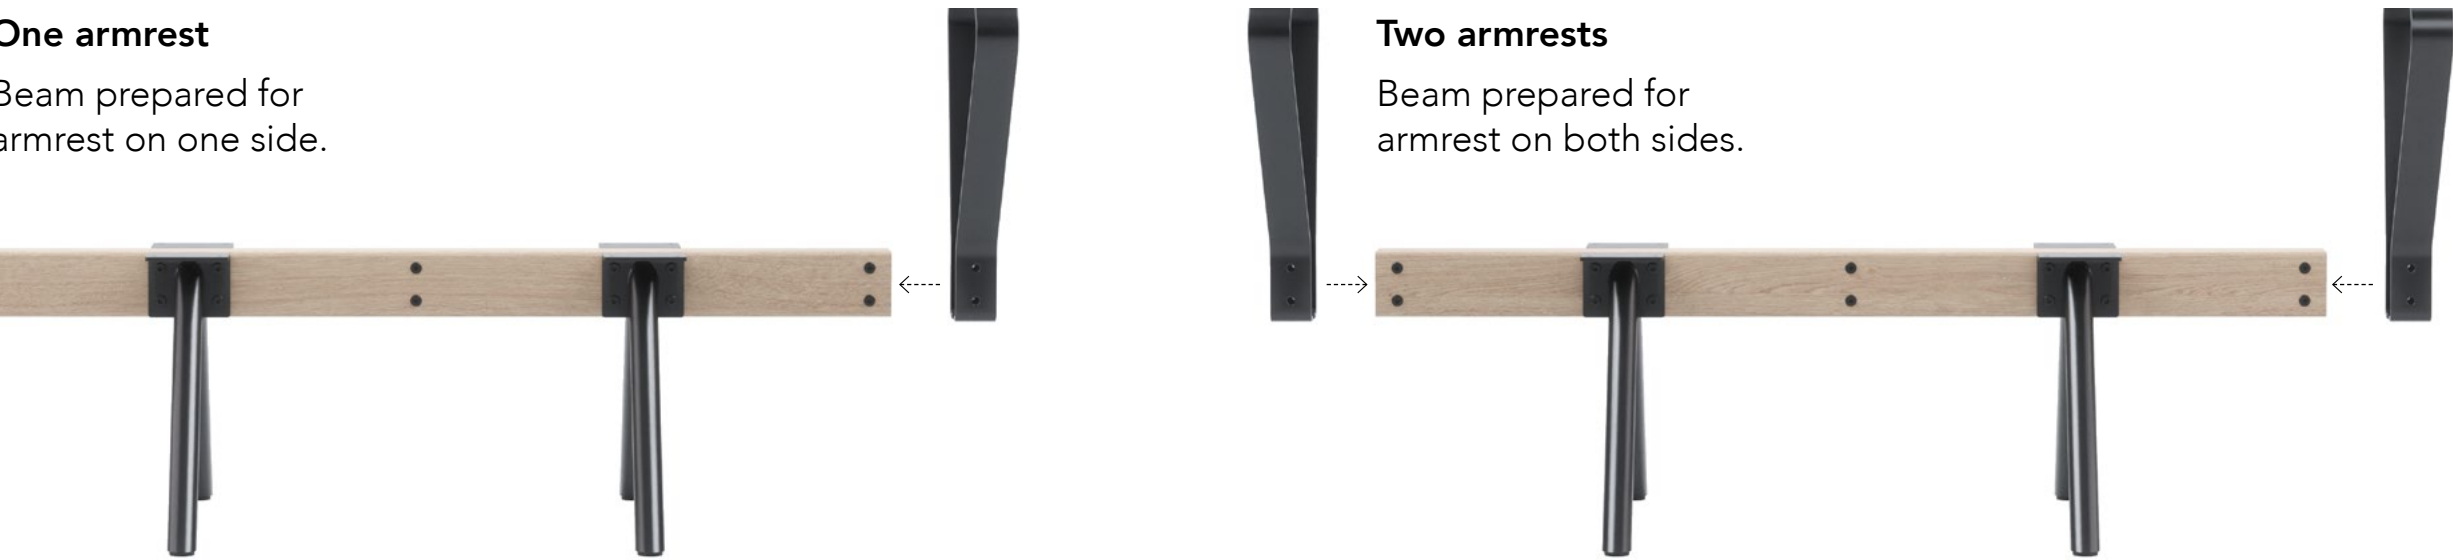

BEAMS

Available in three different lengths depending on the number of modules to be used.

BEAM FOR ARMRESTS

All beams are available with holes for side armrests. Armrests can always be placed between the seats.

SEATS

BORD

ARMRESTS

LEGS

Orders always include the correct number of legs.

Variants

Appoint allows for a wide range of configurations. Thanks to its flexible beam construction, the sofa is easy to customise to suit various settings, which is especially important in healthcare environments where interiors often feature complex layouts and irregular wall or doorway dimensions.

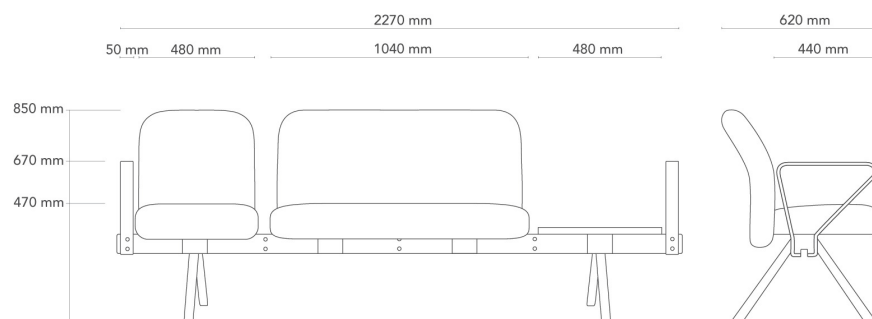

Appoint

4-MODULE BEAM, SPACE FOR TWO SIDE ARMRESTS

Appoint is a flexible beam sofa designed in collaboration with Olle Lundberg. With its soft, Scandinavian shapes and wooden details, it creates a warm, stylish, and comfortable seating environment for public spaces such as waiting areas, receptions, and airports.

The sofa offers high seating comfort and clearly defined seats. It can be upholstered in disinfectable faux leather and features a split seat and back (crumb gap), making it ideal for environments with strict hygiene requirements. The open leg construction makes cleaning easier, and the sofa can also be fixed to the floor.

Appoint is modular and adaptable – it can be configured with armrests, tables, various seat widths, seat height adjustments, and spacer legs. Thanks to its thoughtful design, components can easily be replaced or reconfigured when needed.

Modular sofa

VARIANTS

- Seat
- Side table
- 4-module
- 2-module
- Spacer leg
- Double seat
- Corner table
- 3-module
- Standard legs

ACCESSORIES

- Raised seat
- Armrest, metal, no upholstery
- Armrest, upholstered in textile or leather
- Armrest, upholstered in black leather
- Other fabrics and leather
- Alternative colours

DETAILS

– Appoint can be upholstered in disinfectable artificial leather and features a divided seat and backrest (crumb gap), making it ideal for environments with strict hygiene requirements. The open leg frame simplifies cleaning, and the sofa can also be fixed to the floor.

Appoint is adaptable with spacer legs (creating extra distance from the rear wall), an extra-wide seat, raised seat height, and can be complemented with tables and angled corner tables.

It features clearly defined seating positions and armrests, available either fully in metal or upholstered in artificial leather or fabric. Armrests can be positioned at the ends or between each seat.

CONSTRUCTION

The seat and backrest are made of plywood and moulded PUR foam, with a removable fabric cover attached via zip. A steel bracket connects the seat and backrest for added structural stability. The beam is crafted from finger-jointed solid wood with a water-based lacquer finish. Legs and brackets are made of powder-coated metal, featuring adjustable plastic glides.

The tabletop with a bevelled edge has a 22 mm MDF core, while the version with a straight edge features a 22 mm fibreboard core. Surface layer thickness ranges from 0.2 to 2 mm, depending on the selected material.

DIMENSIONS

Height: 850 mm

Width: 2270 mm

Depth: 620 mm

Seat height: 470 mm

ACCESSORIES

- Raised seat
- Armrest, metal, no upholstery
- Armrest, upholstered in textile or leather
- Armrest, upholstered in black leather
- Other fabrics and leather
- Alternative colours

DETAILS

– Appoint can be upholstered in disinfectable artificial leather and features a divided seat and backrest (crumb gap), making it ideal for environments with strict hygiene requirements. The open leg frame simplifies cleaning, and the sofa can also be fixed to the floor.

Appoint is adaptable with spacer legs (creating extra distance from the rear wall), an extra-wide seat, raised seat height, and can be complemented with tables and angled corner tables.

It features clearly defined seating positions and armrests, available either fully in metal or upholstered in artificial leather or fabric. Armrests can be positioned at the ends or between each seat.

CONSTRUCTION	The seat and backrest are made of plywood and moulded PUR foam, with a removable fabric cover attached via zip. A steel bracket connects the seat and backrest for added structural stability. The beam is crafted from finger-jointed solid wood with a water-based lacquer finish. Legs and brackets are made of powder-coated metal, featuring adjustable plastic glides. The tabletop with a bevelled edge has a 22 mm MDF core, while the version with a straight edge features a 22 mm fibreboard core. Surface layer thickness ranges from 0.2 to 2 mm, depending on the selected material.
DIMENSIONS	Depth: 660 mm Seat height: 470 mm Sit depth: 440 mm
TESTED	EN 16139:2013
WARRANTY	5 years
