

Little Flare

design **Marcel Wanders** / 2005

Little Flare is a versatile table for children, designed by Marcel Wanders, which can be personalised as needed: different tops can be combined, with choices of a white top or two alternative tops with different decoration. However the feature that makes this piece unique are the hollow and open legs in clear polycarbonate, in which children can put anything - drawings, pencils, games and everything their imagination suggests. Thanks to Little Flare kids are free to disassembling "their project" when they want to pass on to something else. A continually changing game to develop an endless number of stories they feel the hero of.

materials /

legs in standard injection-moulded polycarbonate transparent clear. Tops in MDF with white polymeric cover. Patterned tops also available. Pen holders in ABS. Sketch book available with patterns to be completed and coloured.

"the idea of an open project, whose conclusion is left to the children's imagination, helps support their creativity"

product sheet

Marcel Wanders

Regarded by many as an anomaly in the design world, Marcel has made it his mission to "create an environment of love, live with passion and make our most exciting dreams come true". His work excites, provokes, and polarises, but never fails to surprise due to its ingenuity, daring and singular quest to uplift the human spirit, and entertain. In his designs, Marcel often mixes innovative materials and techniques with references to well known historical styles and archetypes, so users can easily connect to the pieces, enjoying them for a long time and in doing so create sustainable surroundings. Marcel's chief concern is to bring the human touch back to design, ushering in what he calls design's 'new age,' in which designer, craftsman and user are reunited.
