ISKU Materials

STANDARD FABRIC COLLECTION

Isku has strict environmental and health requirements for textiles used in public premises.

The amount of free or partially hydrolysable formaldehyde in the finished textile of our upholstery fabrics shall not exceed 300mg/kg (according to EN ISO 14184). DEHP, DBP or BBP plasticizers, which are harmful to reproduction, must not be intentionally added to fabrics. Our upholstery fabrics also do not contain halogenated flame retardants and have not been allowed to add azo dyes that can form carcinogenic acrylamines or dyes that are classified as carcinogenic.

We use fireproof fabrics.

Isku standard fabric collection suppliers are; Gabriel, Camira, Lauritzon, Panaz, Kvadrat, Svensson and Bogesund. Leathers come from Futura Leathers.

Fabric marked with **+** means antimicrobial.

Some fabrics have special remarks marked with the following color codes;

- Healthcare
- For screens and panels
- Kindergartens and schools
- For environments with special requirements regarding cleaning
- Well suitable for upholstery of complex shapes and forms

By clicking the link behind the fabric name, you can find detailed information straight from suppliers site.

Amphi

SEATING SYSTEM

Design Henri Halla-aho

Amphi benches of different heights can be used to form an auditorium-style seating arrangement. The unconnected Amphi seats enable the use of tables in between rows and the provision of ample legroom. The dense, soft material improves the acoustics of the space.

Equipped with either castors or glides.

Materials and finishing

Amphi is an environmentally friendly product bringing circular economy thinking into life. The material consists of leftover cuts of foam plastic products

Upholstered with ISKU standard fabric as desired.

Dimensions

Amphi is sold in a set of six seats. One set includes seats of three heights: 2 seats of 26 cm, 2 seats of 40 cm and 2 seats of 54 cm. More info on the datasheet.

Amphi

SEATING SYSTEM

Datasheet

As the height and depth of Amphi seats follow the measures of the Kivikko seating solution, the two series work well as a variety of combinations.

Heights: 26 cm / 40 cm / 54 cm.

Foot options: castors, standard, felt

The dimensions are in millimeters.

The dimensions are in centimeters.
