

FREEFLEX

Freeflex provides a clever and adaptable solution to support the user's movements in their working environment. Flexibility is central to the design of Freeflex, giving the user the freedom to make simple adjustments; to their seat height, seat depth and back height to achieve ultimate comfort.

In designing Freeflex, special attention was paid to the user's natural pivot points, where they flex and where they don't. This inspired the development of a dynamic weight balancing tilting action and articulated flexing back, which intuitively encourages movement, whilst providing great support.

Design by Justus Kolberg

Standard Features (*Selected models only)

- 5 Star base
- 65mm Hard wheel castors*
- Weight controlled synchronised mechanism with travel limitation in four steps, including locking upright*
- Moulded seat and back foam
- 60mm seat depth adjustment
- Integrated flexible back membrane
- 70mm back height adjustment

- Contrasting mesh side panels on the seat and back, with a complementary coloured back insert
- Width and height adjustable arms*
- Stool height variation

Optional Features

- Castors for hard and soft floor coverings
- Gas lift options
- Two-tone upholstery
- Choice of finish options available – see finish page

ENVIRONMENTAL

Material Content

Components are constructed of the following

Recycled Content

Contains up to 8% of Recycled Material

Recyclability

The range is 99% recyclable

99%

Environmental information for this range has been based on FLX740HA. For more detail please refer to individual EPA sheets.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce Reuse Recycle

FREEFLEX

Finish Options

5 Star base available in Graphite Plastic or Polished Aluminium

Plastic components available in Graphite with Black or Light Grey back and arms
