# OTO.berlin Joel Hoff and Philipp von Lintel

Joel Hoff

Philipp von Lintel

With the new belux oto luminaire family, belux complements the product portfolio for sophisticated lighting solutions in the office, home office, hospitality and private home sectors. The idea and design of the new and unique lamp was created in the design studio OTO.berlin, with Philipp von Lintel and Joel Hoff. The interaction of different light levels in combination with the materialization, which is unique in the high-quality lighting industry, supports the zeitgeist of current and future-oriented lighting planning.

# Light volume and emotion

Direct light: a precise optics package enables homogeneous illumination of the workplace.

Indirect light: the powerful indirect light creates a pleasant feeling of space and also optimizes the even distribution of light on the desk. Emotion and ambience: the striking geometry of the diffuser made of high-quality silicone brings pleasant, atmospheric light into any environment.
